# Driving Innovation with Digital EA

## What Is Innovation? Types Of Innovation In A Nutshell

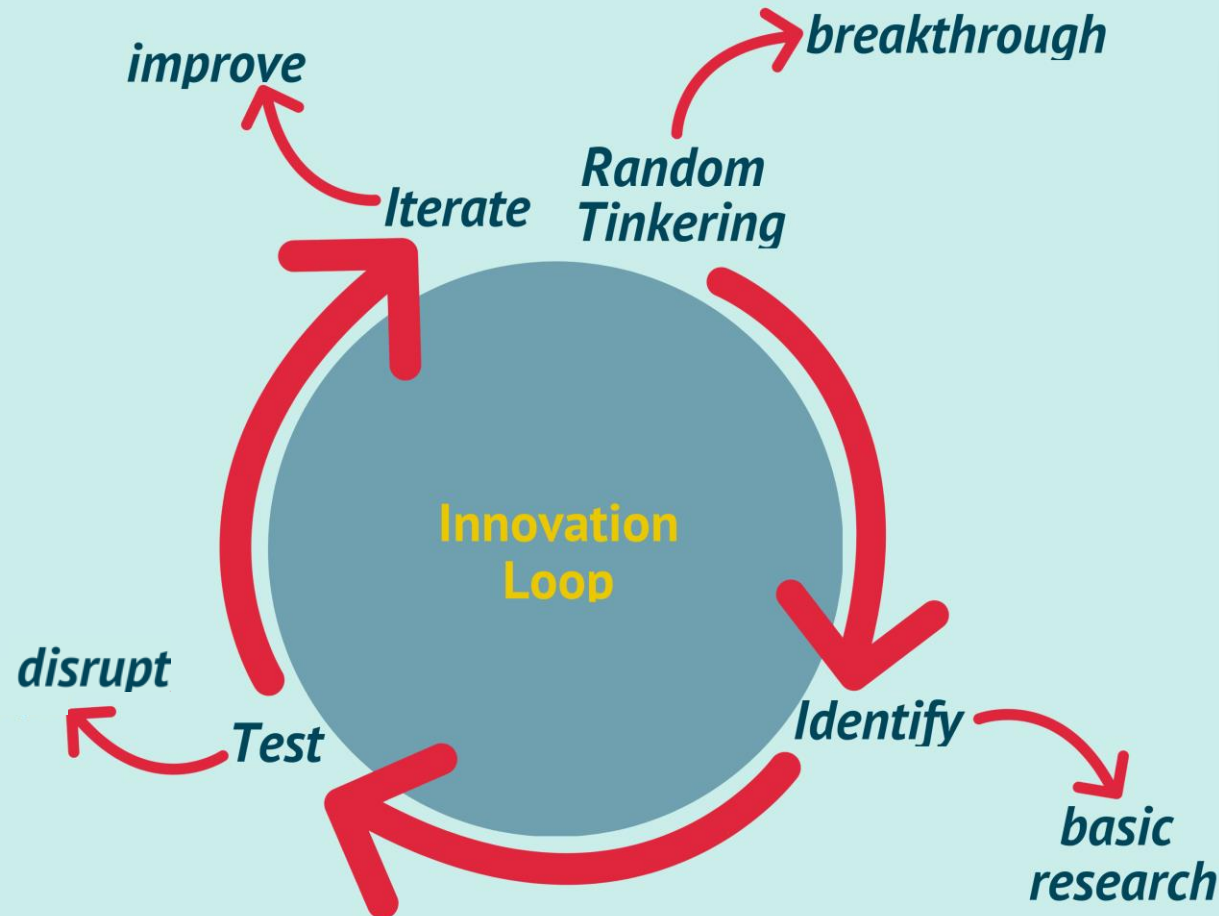

Innovation in the modern sense is about coming up with solutions to defined or not defined problems that can create a new world. Breakthrough innovations might try to solve in a whole new way, well-defined problems. Business innovation might start by finding solutions to well-defined problems by continuously improving on them.

### DIGITAL EA JOURNEY

- Transition & Iteration
- Capability Improvements
- Innovation & Productivity
- Metrics & KPIs

### DIGITAL TRANSFORMATION

- EA Realization
- Solution Architecture
- Implementation Governance

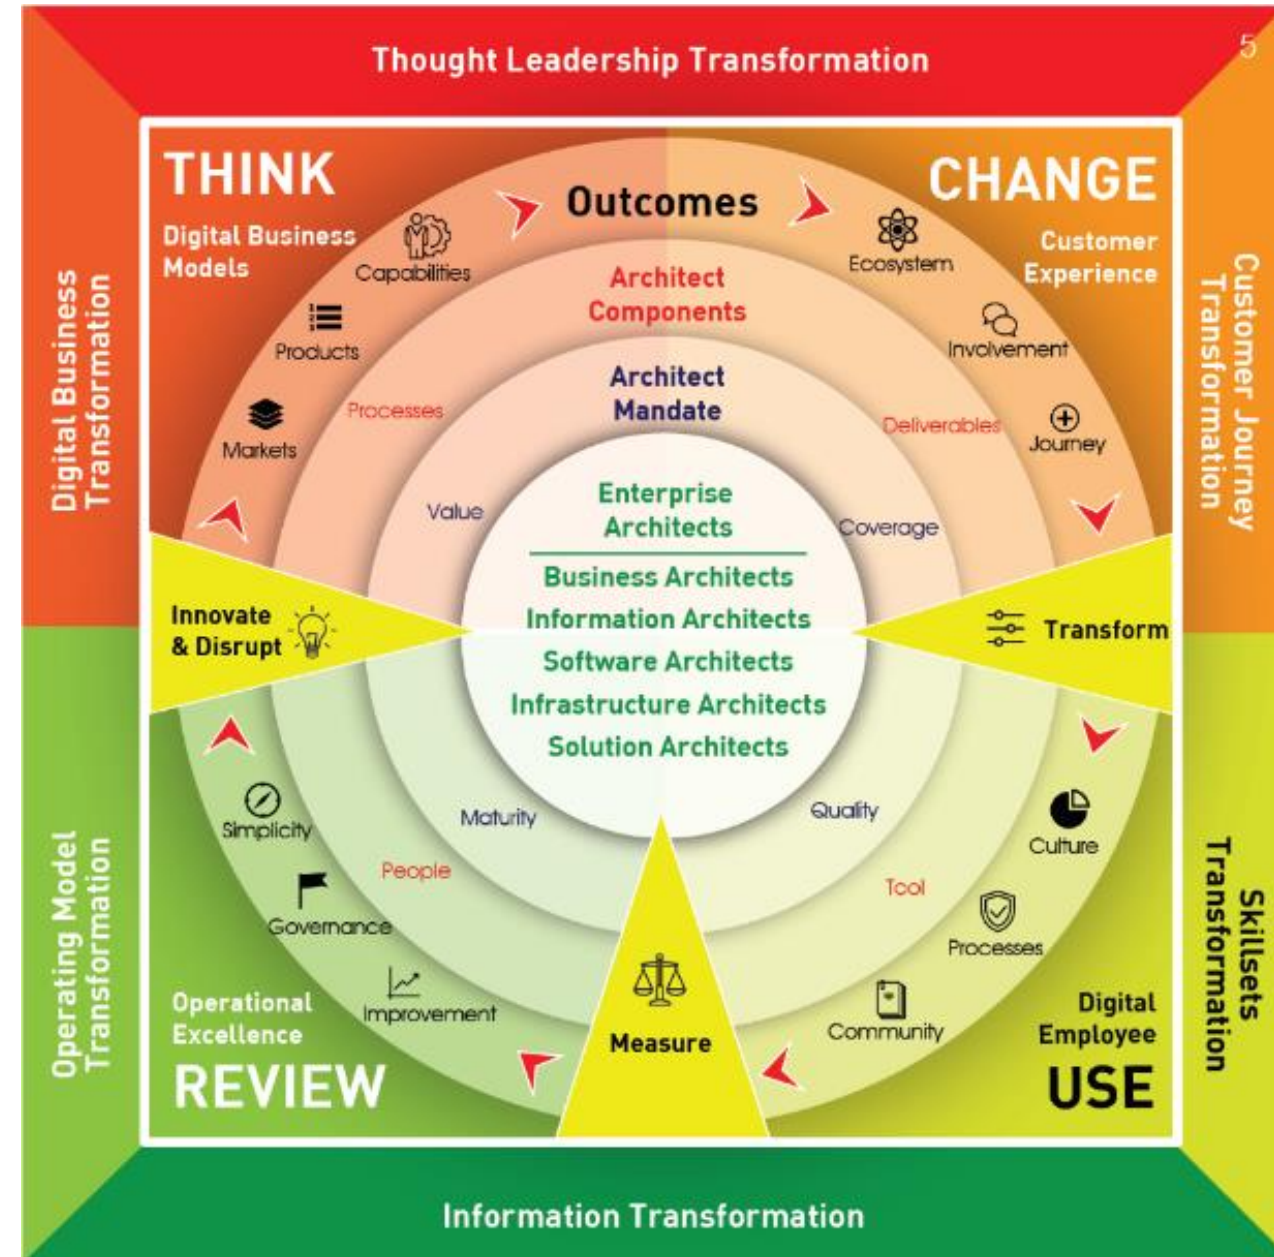

### STAKEHOLDER'S MOTIVATION

- Vision and Mission
- Stakeholder's Concerns
- Drivers and Goals
- Requirements & Observation
- Strategies & Capabilities

### BASELINE - TARGET - GAPS

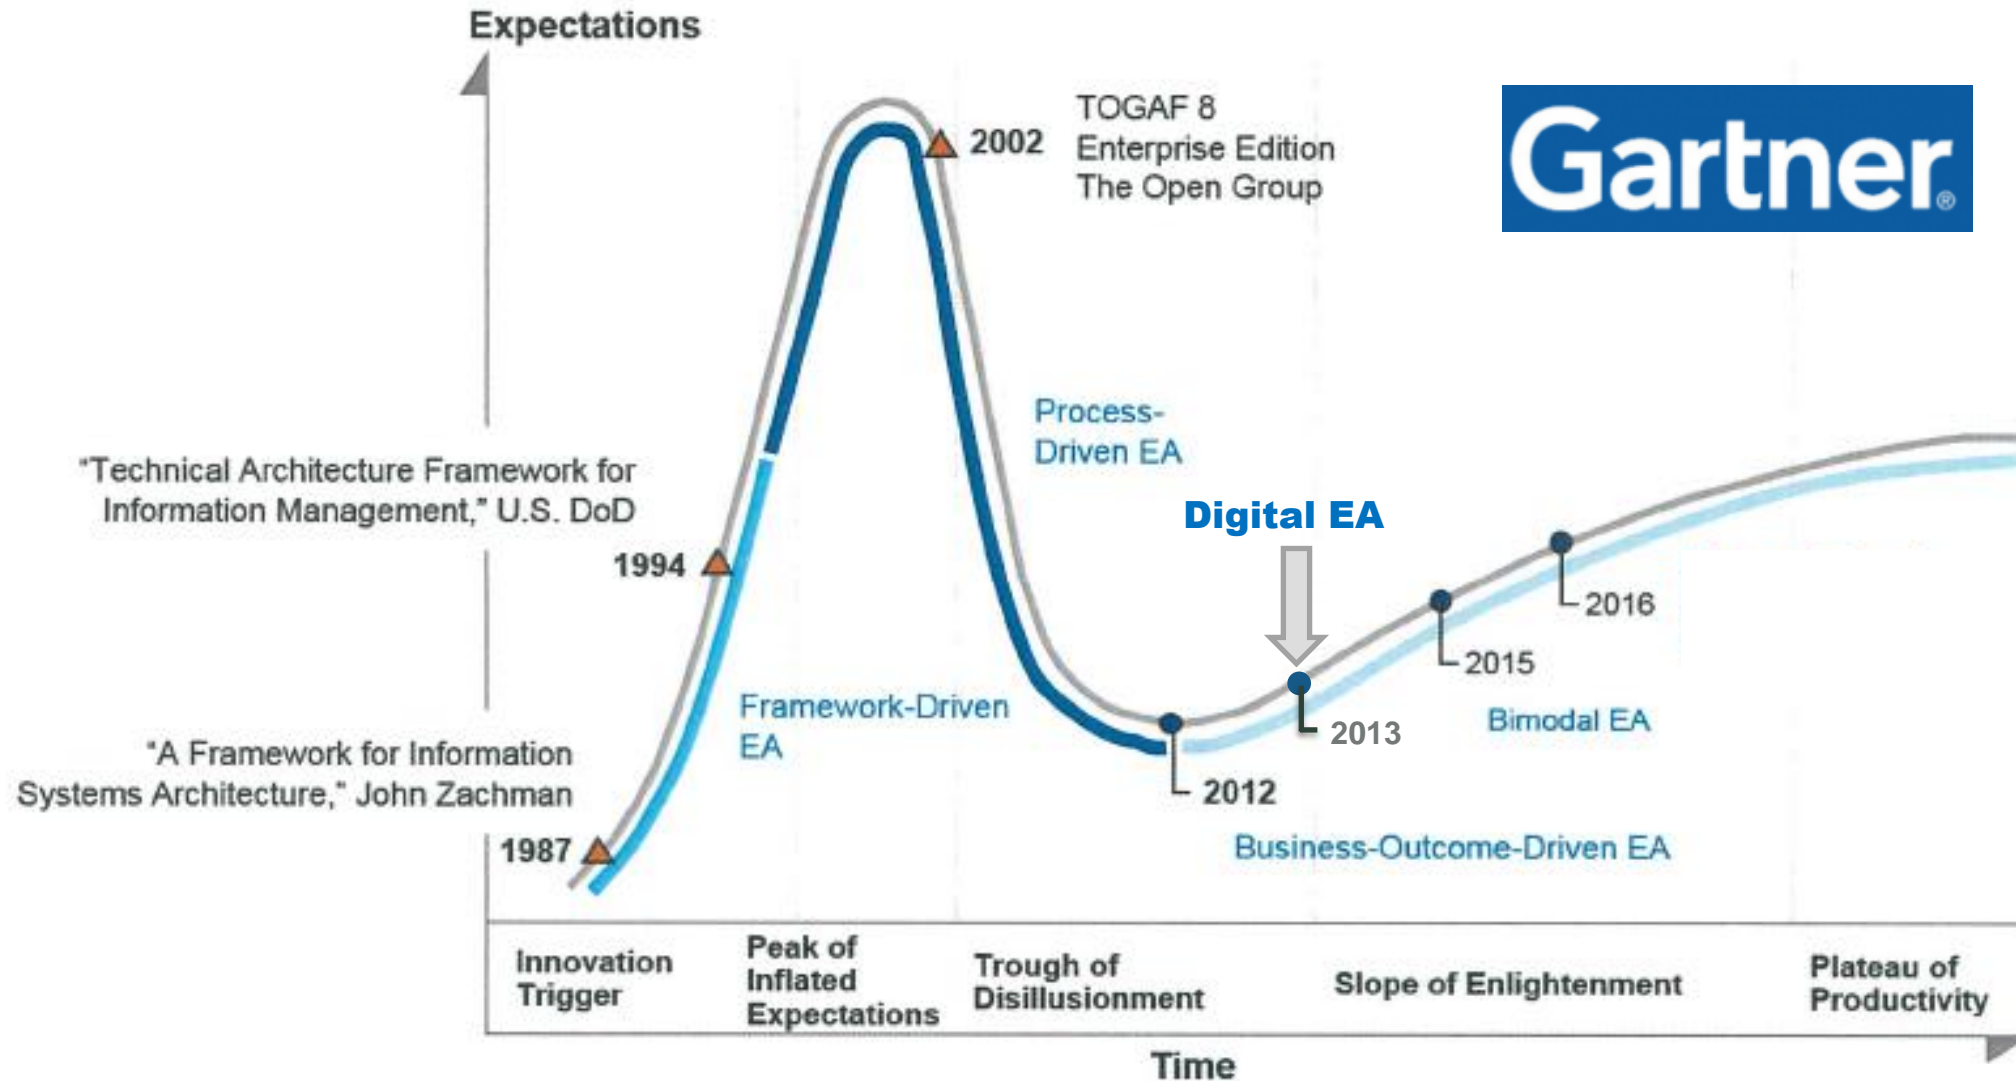

- Business Architecture
- Information Architecture
- Software Architecture
- Infrastructure Architecture

- It provides a guidelines for Enterprise Architects to be successful in delivering valuable **TECHNOLOGY STRATEGY** and **INNOVATIONS** to the business while driving continuous Digital Transformation.

# THE START OF DIGITAL EA JOURNEY SINCE 2013

## The Evolution of Business-Outcome-Driven EA

**NOW, pushed by COVID19 pandemic**

## Future of EA ~~2025~~: Evolving From Enterprise to Ecosystem

Published: 7 October 2014

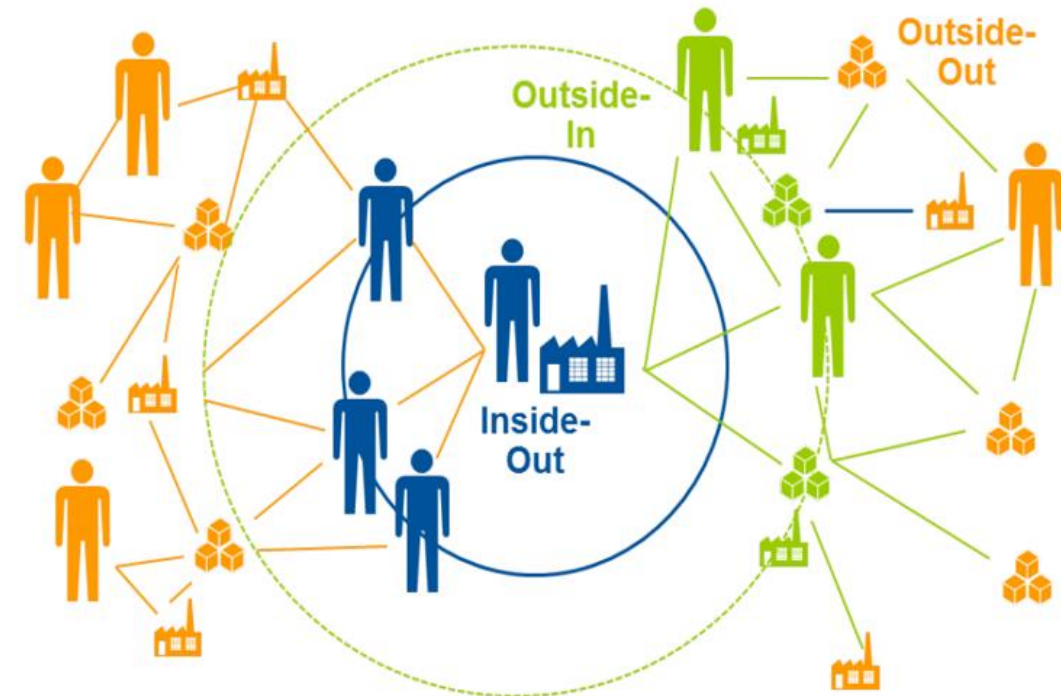

Analyst(s): Marcus Blosch, Betsy Burton

Digital business is altering and broadening industries, businesses and people. EA practitioners will expand their perspectives beyond an "enterprise" to deliver business outcomes and leading response to disruptive trends with the context of a broader ecosystem of customer partners and competitors.

By 2025, organizations will predominantly focus EA on delivering business outcomes from the perspectives of their business ecosystem.

Last week, CAST attended the [Gartner EA Summit](#), held at National Harbor. It was two days of jam-packed sessions and workshops about Enterprise Architecture, but what stuck out the most was the value of this very unique discipline as a catalyst for Digital Transformation.

EA and [Digital Transformation](#) were the core focus of many presentations, including Mike J. Walker's session "Leverage EA to Understand the Value and Impacts of Digital Disruption." Mike stressed that this ever-evolving discipline is becoming a vital component to corporate strategy, delivering high-performing and sustainable business outcomes.
