Inspire Trust

Allianz

Adonis has been instrumental in us having **full process maps** for mid-term adjustments on Fleet policies across the UK and India, for us this means we have a detailed map of the **entire process** so this can be **easily followed** when training new members of staff.

We felt having process maps **future proofs** us for any changes that may come in in future, with the world of technology ever evolving it's inevitable that our **technical approach may change,** and **new systems** will be **deployed** and with this in mind it makes it much easier to amend existing maps as we can **simply amend the steps** in the process

Testimonial from Leanne Newton – Motor Fleet Manager
