by boc-group.com

- ▶ Part 1: Start Enterprise Architecture the lean way
- ▶ Part 2: Make EA collaborative
- ▶ Part 3: Use EA for better decisions

Why many EA initiatives fail

- ▶ The Problem:
 - ▶ Too complex from the beginning
 - ▶ Too many models
 - ▶ Too much documentation
 - ▶ Too difficult for non-architects
 - ▶ Too slow to create value

Lean EA = Focus on Value

- ▶ The Solution:
 - ▶ Start small
 - ▶ Focus on real stakeholders
 - ▶ Remove unnecessary activities
 - ▶ Deliver value early
 - ▶ Grow step by step

Small → Useful → Growing

Lean EA is not “Less EA”

- ▶ Lean EA does NOT mean:
 - ▶ Less structure
 - ▶ Less quality
 - ▶ Less transparency

- ▶ Lean EA DOES mean:
 - ▶ The right level of detail
 - ▶ The right information
 - ▶ At the right time

ArchiMate: Powerful but Overwhelming

- ▶ ArchiMate is:
 - ▶ Powerful
 - ▶ Flexible
 - ▶ A global standard
 - ▶ **But too difficult to start with**

Too many objects → Where do I start?

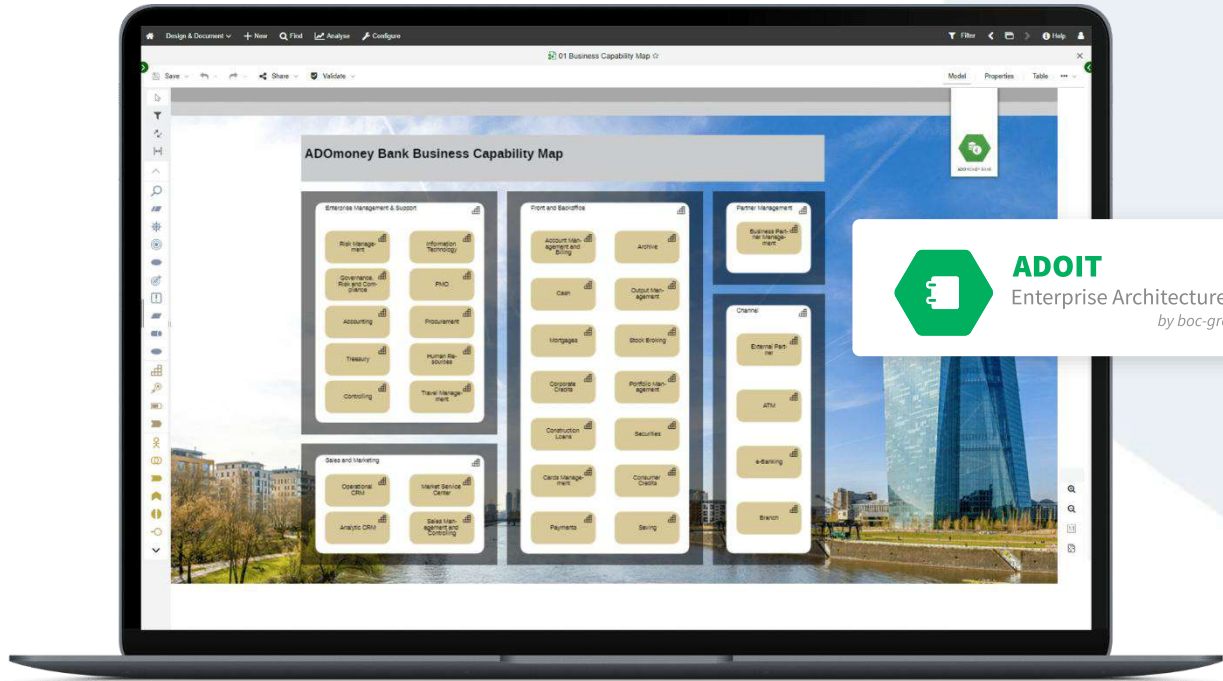

The Best of both Worlds

ArchiMate but Lean

- ▶ Start small
- ▶ Expand gradually
- ▶ No need to start over later
- ▶ Fully customizable

Simple enough to start - powerful enough to grow.
