Navigating the EU AI Act

How ADOIT Helps You Achieve AI Governance & Compliance

ADOIT
Enterprise Architecture Suite

What is the EU AI Act?

A risk-based framework for regulating AI

Four horizontal blocks:

1. **Unacceptable Risk**
 - ▶ Certain AI practices are prohibited
2. **High Risk**
 - ▶ Extensive requirements apply
3. **Transparency Risk**
 - ▶ Users may need to know when AI is involved
4. **Minimal/Low Risk**
 - ▶ Generally fewer or no specific obligations

The AI Act is already here

Enterprise Architecture Suite

by boc-group.com

- ▶ 2024:
 - ▶ Enters into force
- ▶ 2025:
 - ▶ First obligations
 - ▶ AI literacy
 - ▶ Prohibited practices
 - ▶ GPAI
- ▶ 2026:
 - ▶ Broad application
 - ▶ Transparency
- ▶ 2027: The implementation journey continues

Does it concern You?

ADOIT
Enterprise Architecture Suite
by boc-group.com

- ▶ You don't have to be an AI company for the AI Act to matter to you
- ▶ If your company uses AI, you need to understand your exposure
- ▶ Think of it this way:

We don't develop AI

But we use AI

AI is embedded in our applications & processes

WE NEED TO UNDERSTAND OUR EXPOSURE

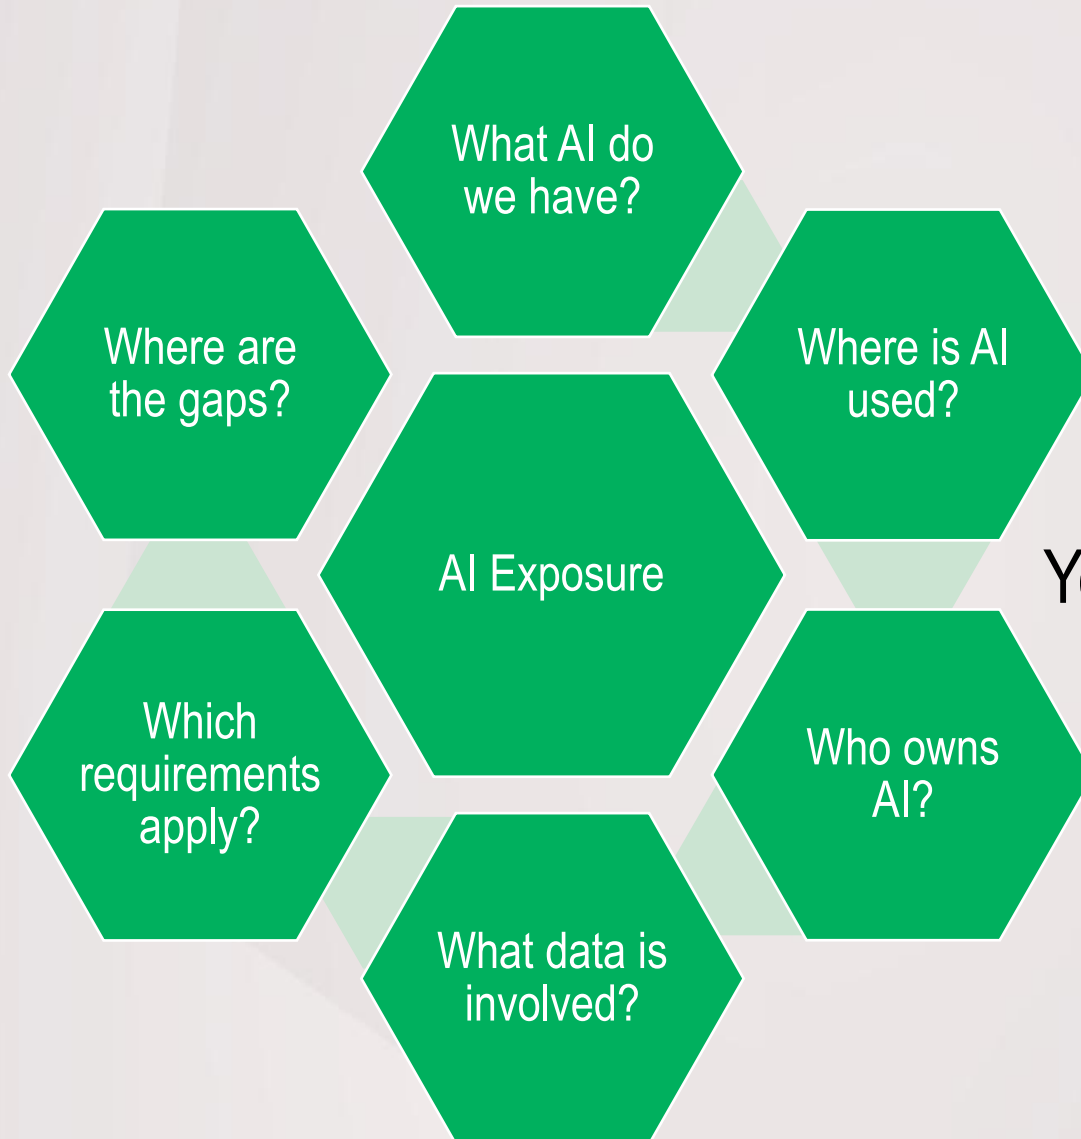

What does “AI exposure” mean?

ADOIT

Enterprise Architecture Suite

by boc-group.com

You can't effectively govern what you can't see

How do we turn Regulation to Architecture?

ADOIT

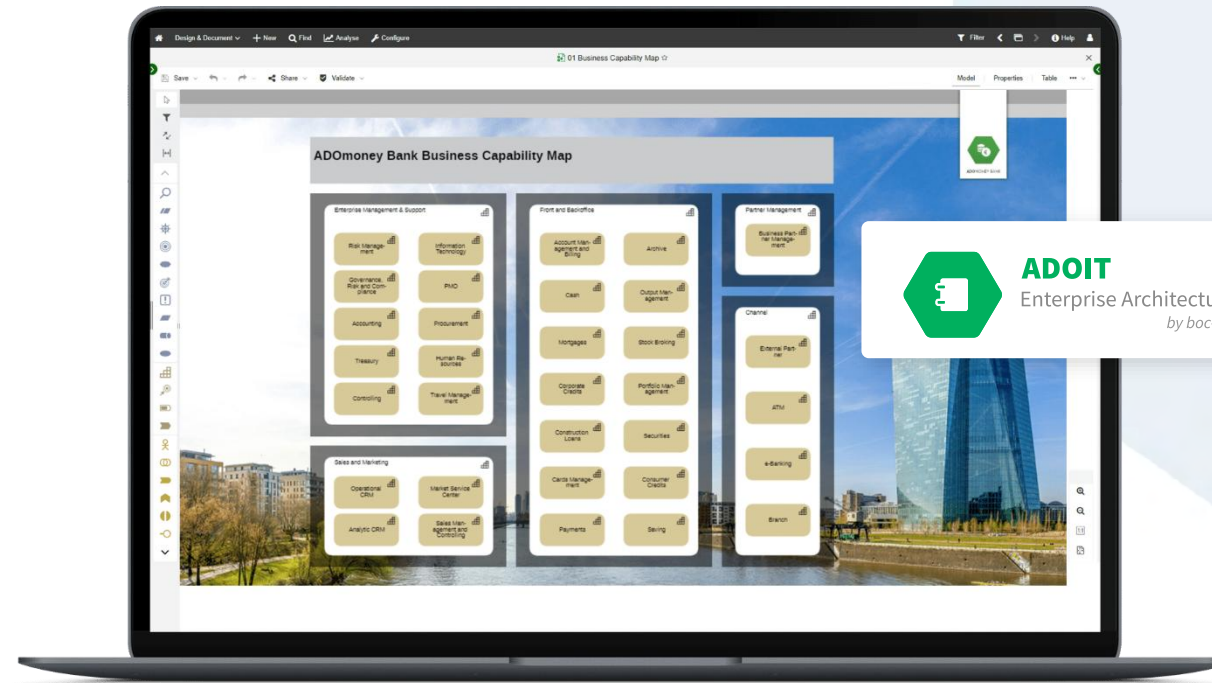

Enterprise Architecture Suite

by boc-group.com

How do we turn regulation into something we can manage?

1. REGISTER
 - ▶ Make AI visible
2. CONNECT
 - ▶ Put AI into context
3. Visualize
 - ▶ Understand your AI landscape
4. ASSESS
 - ▶ Understand compliance exposure

LIVE DEMO

Make your business run better.

From AI Inventory to AI Exposure

- ▶ Register
 - ▶ Capture AI agents as application services
- ▶ Connect
 - ▶ Link AI services to application components
- ▶ Visualize
 - ▶ Understand your AI across applications, capabilities and relationships
- ▶ Assess
 - ▶ Evaluate relevant applications against compliance requirements

Where does this leave us?

- ▶ Foundation for an ongoing AI governance
- ▶ AI landscape isn't static:
 - ▶ New agents will appear
 - ▶ Applications will change
 - ▶ Business capabilities will evolve
 - ▶ The regulatory landscape will continue to develop

Register ▶ Connect ▶ Visualize ▶ Assess ▶ REPEAT

Take away:

- ▶ You don't have to be an AI company for the EU Act to matter to you
- ▶ You can't effectively govern what you can't see.
- ▶ AI governance is ongoing.

**The AI creates an obligation.
ADOIT helps you create the visibility and context
needed to manage it.**

Q&A Session

Feel free to send any questions our way even after the webinar.
